

## Capital Markets deal highlights H2 2018

**Despite a challenging market, we have had a busy H2 2018. A particular highlight was hosting our annual AIM seminar in November, which included an AIM market update from Head of AIM, Marcus Stuttard, and a panel discussion on key topics including Brexit, merger control rules and MAR. Our team advised on a number of capital markets transactions and secondary fundraisings during H2 2018:**

The placing proceeds will be used to bring the Elandsfontein Phosphate Project, the Company's near-term producing asset in South Africa's Western Cape Province, into production, to define the development programme for the Company's Hinda Phosphate Project in the DRC and to explore the Company's greenfield Ghanaian project.

### Fastjet plc

Advised AIM listed client and multi-award winning low-cost African airline, fastjet plc, on its placing, subscription, open offer and balance sheet restructuring to issue equity with a total value of US\$40.7million, and separately, on a US\$10 million capital raising by way of an institutional placing, open offer and shareholder subscription.
